OVERVIEW

Mountain Housing Opportunities is a non-profit community development corporation with a mission to build better communities and serve people well. This site installation is in Asheville NC for one of their communities.

GOAL

Save 15% in water usage consumption with 0% effect on water flow rate and PSI.

RESULTS

Installation took 2 hours per building. PSI and water flow were tested to show same experience before and after our project. Weekly meter readings and optimization continued for water usage historical comparisons.
