OVERVIEW

Eagle Market Place is a 5-Story affordable housing/commercial space mixed-use building. Renovations completed in 2018 with local fanfare for the beautiful building.

GOAL

Save 15% in water usage consumption with 0% effect on water flow rate and psi.

RESULTS

Installation took 3 hours. No issues occurred during or after installation. Exactwater restored water, offices and families returned to normal water services, and optimization of the equipment began. The 45% improvement accounts for a seasonal "low usage" period also, so 120-Day results may be over 50% improvement.
