OVERVIEW

Habitat was recognized as the 2020 Property Management Company of the Year by IREM. They work across a wide variety of property types – from affordable housing communities to condominiums to luxury high-rise towers – but, no matter the project, their **people-first approach** remains the same.

GOAL

Save 15% in water usage consumption with 0% effect on water flow rate and PSI.

RESULTS

Installation occurred over 3.5 hours with normal resumption of water services. Pressure and volume flow rates were tested and validated at the pre-install levels.
